📍 Bangalore, India

ABOUT ME

A highly motivated and adaptable engineer with a strong foundation in programming languages and data analysis, seeking to leverage skills in problem-solving and critical thinking. Eager to contribute to a collaborative team and apply expertise in areas such as image processing and algorithm development to solve complex challenges.

EDUCATION

National Institute of Technology Delhi | 2016

Bachelor of Technology

Electronics and Communications Engineering

PROJECTS

3D Object Reconstruction

Dr. Rajiv Tripathi, NIT Delhi

- Camera calibration using chessboard image
- Identified key points and stitched images into 3D model

Finger Vein Recognition

Dr. Rajiv Tripathi, NIT Delhi

- Extracted features from IR and texture images
- Compared Finger Vein matching with Fingerprint matching

Automatic Headlight Controller for enhancing ADAS

Dr. M. Hanmandlu, IIT Delhi

- Developed ROI selection and tracking algorithm
 - Automated switching to low beam in oncoming traffic
-

SKILLS

- | | | |
|-------------------------------|-------------------|---------------------|
| • C/C++ Python Java | • SQL Programming | • Data Analysis |
| • Data Structures, Algorithms | • OS Concepts | • Critical Thinking |
-

COMPETITIVE PROGRAMMING

Hackerrank | @cannibal

- Python Rank - 1
- Gold - C++, Java, Python
- Gold - Problem Solving

Leetcode | @rajveer

- Solved 700 problems
- Rated 1678
